

# New Zealand COMMERCIAL VESSELS

Profiling commercial boat building, design, engineering, shipyards, vessel maintenance, refit plus the supply of innovative marine equipment and services

START>>

# Welcome

**The New Zealand Marine Commercial Vessels Group (CVG) represents a diverse range of companies that provide design, build, refit and supply services to the commercial ship and workboat sector.**

Member companies operate independently but the Commercial Vessels Group 'umbrella' presents their collective skills, coordinated by the NZ Marine Industry Association, as a formidable, one-stop-shop for commercial vessel projects. By working together, the companies under the Group are far more effective in servicing international and domestic markets.

Industry training plays a crucial role to provide an ongoing supply of skilled personnel and many commercial vessel member companies use the good services of the Marine & Specialised Technologies Academy (MAST). MAST (owned by the NZ Marine Industry Association) currently has over 700 marine apprentices and the growth in these numbers is a credit to the companies, including many in the Commercial Vessel Group,

who continue to employ and upskill young people within the New Zealand marine industry.

The New Zealand Marine Industry is internationally respected as one of the most innovative and efficient creators of high-tech vessels and marine equipment in the world. Governments worldwide are now increasingly looking to New Zealand for their procurement of vessels for defence, coastguard, customs, police, pilot, conservation and transport (ferry) operations. New Zealand has a favourable exchange rate and more importantly the quality of build ensures a very long life of service from NZ built vessels.

This directory showcases some of New Zealand's world-class commercial vessel capability.

We invite you to review and contact the companies listed with any of your commercial vessel requirements.

<b>CAPABILITY STATEMENT</b>	4
<b>VISITING NEW ZEALAND</b>	5
<b>SELECTION OF DESIGN AND BUILD PROJECTS</b>	6
<b>BOAT BUILDERS</b>	15
• Boat builders, ship repair	
• Refits, maintenance, conversions & modifications	
<b>SHIPYARDS</b>	18
• Haulout, hardstand, dry dock services and ship repair	
<b>DESIGN &amp; CONSULTANCY</b>	20
• Naval architects - marine design and consultancy	
• Marine engineering, design	
• Marine surveyors	
<b>ELECTRICAL &amp; ELECTRONICS</b>	21
• Electrical – control, installation, repair & equipment	
• Electronics, navigation & communications	
<b>ENGINEERING</b>	23
• Engineering services – including equipment, machining & installation	
• Maintenance and welding	
• Stainless marine products & metal fabrication	

<b>MACHINERY &amp; EQUIPMENT</b>	25
• Engines - including services, equipment & rebuilds	
• Transmission & propulsion systems	
• Hydraulics, plumbing & pumps,	
• Refrigeration and air conditioning	
• Safety equipment	
• Winch, anchors, thrusters & propellers	
<b>MANAGEMENT</b>	28
• Project management	
• Vessel support	
• Insurance	
• Crew management and placement	
• Other support services	
<b>PAINT AND SUPPLIES</b>	29
• Fuel and lubricants supplies	
• Provedores & vessel supplies	
• Ships chandlery & protective clothing	
<b>OTHER PRODUCTS AND SERVICES</b>	30
• Interior – including design, fitting and furnishings	
• Legal services	
• Publications & media	
• Marine valuations	

# Capability statement

**Members of the New Zealand Marine Commercial Vessels Group provide products and services to a wide range of commercial vessel operators, including:**

- Ferries - passenger & vehicular
- Search & rescue craft
- Work boats & tugs
- RHIBs & tenders
- Fishing vessels
- Harbour support craft
- Cruise, charter and expedition vessels
- Police, customs & patrol vessels
- Naval specialist surface craft
- Offshore support vessels
- Survey, seismic & research craft
- Eco tourism vessels
